

Cars #flushyourmeds Scott Barry ; ALSO Freemasonic Gang
Stalking ... ; Gang Stalking is RAN BY SHERIFFS DEPTS ... ;
So we were heading on the road me and dad in Interstate Ninety,
we kept going then we went faster, too fast, it suddenly slowed
down, I said stop when a red car in front of ten other cars
stopped sudenly, traction control was not as good, we hit a
light pole on milepost eighty, it busted the wheel axel
completely loose on the drivers side and dented the driver side
agianst the light pole, Cle Elem police arrived, asked for two
state IDS, license, registration, insurance and everything
else, the back door was almost busted open but got re closed,
The One Tail light was busted, loose, A state patrol gave dad a
ticket demerit, The Female officer was another Freemason, they
are all hostile, do not mess around and be stupid, The towing
company arrived, It was Willettes Towing Company in Cle Elum
Washington, that was discounted with Allstate Insurance and
paid for with my debit and cash, Then we had to wait in a
wrecking yard for another six plus hours I used the bathroom
and went on a dry fast just to play it safe, Finally an
Allstate Insurance Towing company arrived, the Willettes was
kinda nasty, denied first aid, we got first aid from a stranger
for twenty dollars, so it was kinda long and boring, not the
nicest people work in towing companies and they do not care if
you die or whatever, finally the Allstate Insured one arrived,
we made second transaction on dads debit, not my debit, we
could not use mobile data so we borrowed the companies through
tethering the WiFi, we made the transaction through the
Allstate insured car, The WiFi password was kingdill for some
reason, but whatever, tethering was only way to pay for it, We
by Fifty probablility would have been stranded for several days
in the middle of cle elem and not olympia, that shows you how
***** these Freemasons in Sheriff's Departments aka Gang
Stalkers can really screw you, also another failed road trip to
a Motel, I did not want to go, saying stop was the only way to
get back home, I know it's kinda autistic, but that is what I
got, I payed about one fourty total on my debit and The KIA
Sorrento had a traction control break problem then broke the
drivers side wheel axel, so enough there ... ; A person like me
would if well informed on Legal Matters would discharge via an
SF Dask Twenty Four Form also known as a BID Bond and the CUSIP
Number on the back of my Social Security which by coincidence
is "C666" stopthepirates dot blogspot dot com also archived is
the best resource I have ever found on the Internet, I know all
these Freemasons in Tow Companies and Law Enforcement are the
Gang Stalkers, Are Psychopaths, Treat everyone like dirt, so it
aint new ... ;
